

Dear Kent,

11/16/10

Thank you for directing support from the Land of the Free Foundation to SDSU's Academic Advisor position for severely wounded service members.

As you know, your gift will impact many transitioning service members and their families in a very profound way. If you ever visit the San Diego area, I hope you will allow us the opportunity to introduce you to some of our outstanding student veterans and staff who support the Academic Advisor position's efforts.

Warm regards,

Gwen
